

**Phoenix**

---

A Cyber Threat Awareness Platform

 larocasolutions

# Our CYBER SECURITY Solutions

As a specialized **CYBER SECURITY** company, **laroccasolutions** provides **SaaS Cyber-Attack** simulation services. Our computer simulation **PLATFORM**, one of a kind, is able to assess the security level of each computer system

Highlighting any hidden vulnerabilities and providing in-depth insights, **laroccasolutions** is able to identify, and solve, any inherent security problems in each system

## STRENGTH POINTS

RUN SIMULATIONS FROM ANY LOCATION, WHEREVER YOU ARE

SAAS SOLUTION: NO HARDWARE REQUIRED

PLUG & PLAY SOLUTION

CYMLATE WORKS 24/7, 365 DAYS A YEAR

SIMULATION "ON DEMAND" & INSTANT RESULTS

SELF-SERVICE MODEL - KEEPS YOU IN CONTROL

## MAIN TESTS

TEST YOUR ENTIRE E-MAIL SECURITY FLOW

HTTP/HTTPS OUTBOUND

HOPPER: LATERAL MOVEMENT

RUN AGENT

RUN ATTACKS

VIEW REPORT

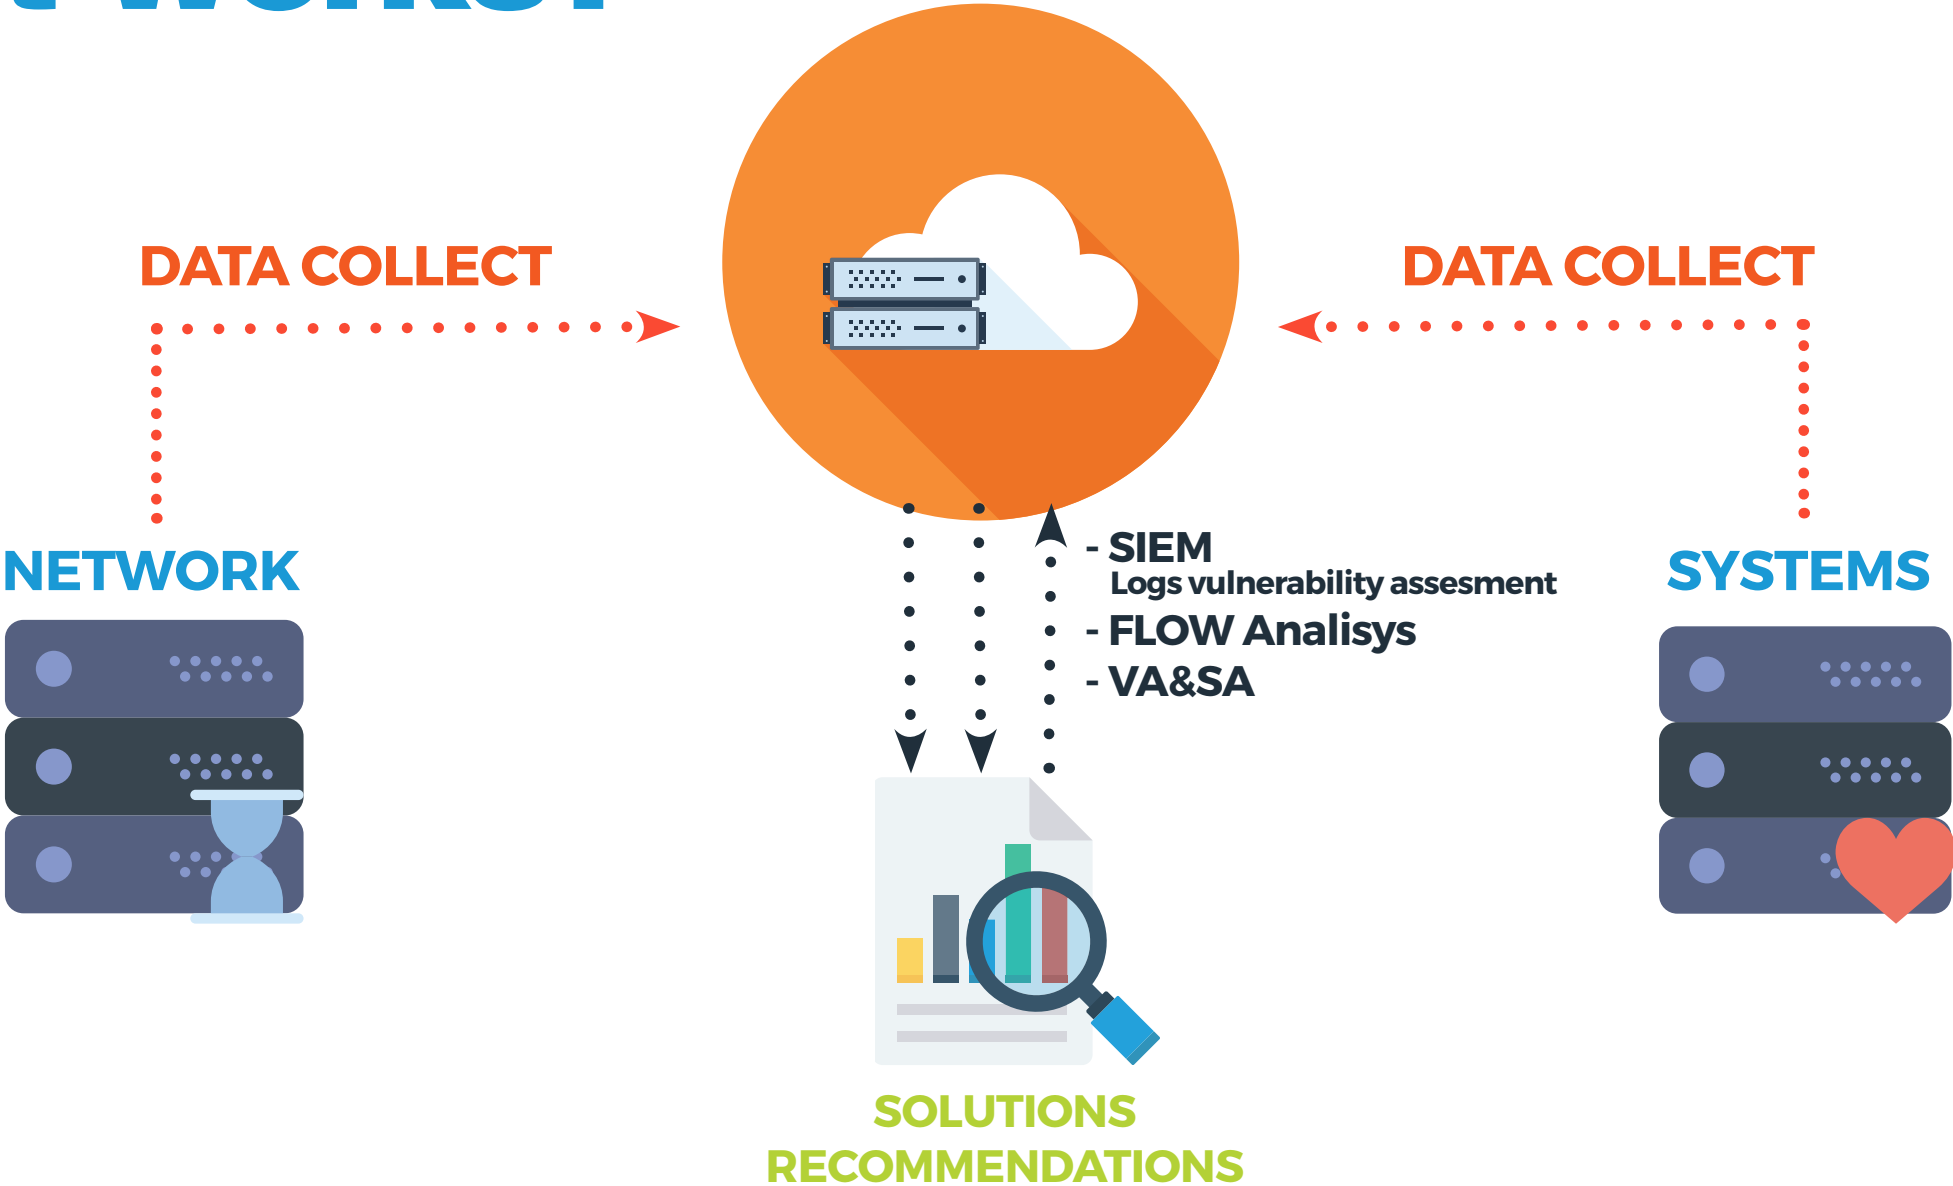

# What it is?

**Phoenix** is a Threat Management Platform able to provide a complete, up-to-date, information for a quicker and better response to cyber threats and compliance requests corporate-wide

Phoenix collects data from customers networks & systems and correlates them in order to be advised on pending threats

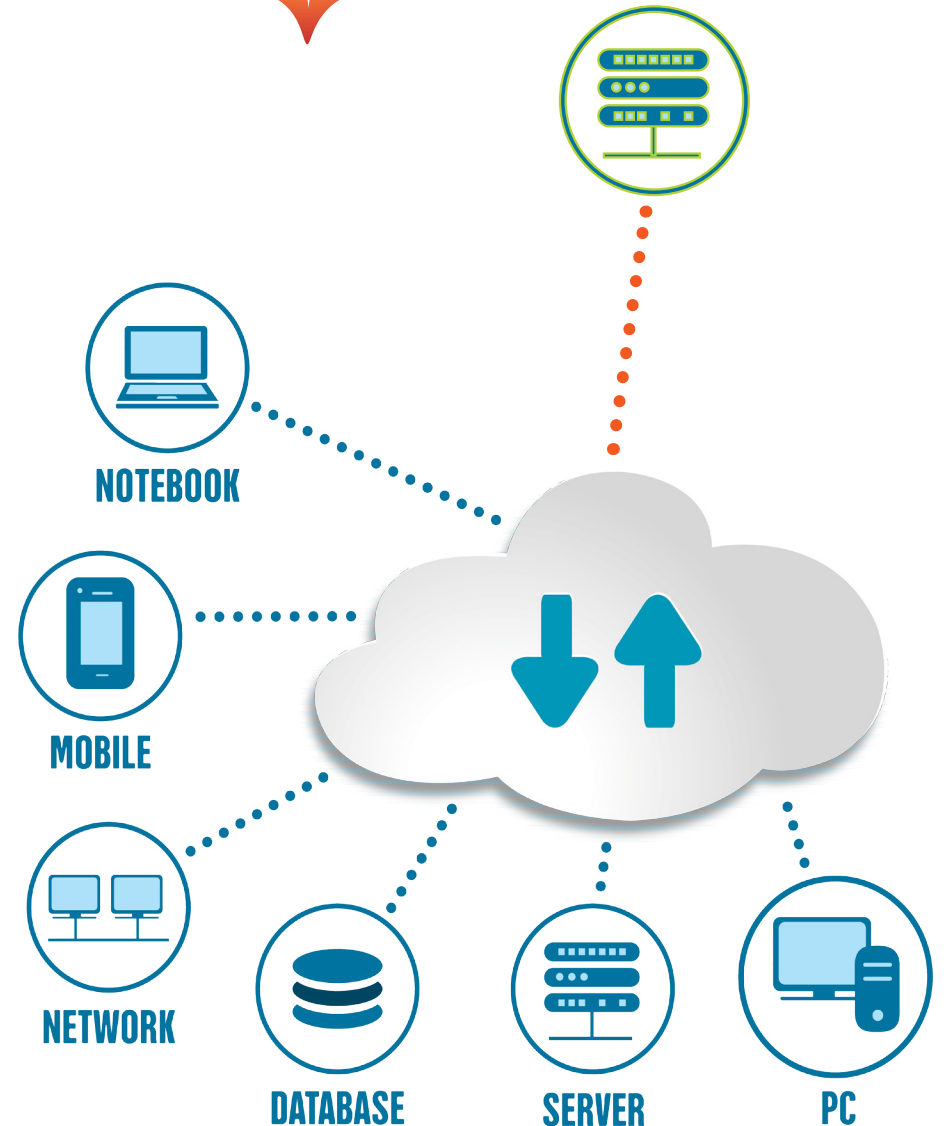

# How it Works?

# Main Features

- CENTRAL SYSTEM
- SIEM  
(SECURITY INFORMATION & EVENT MANAGEMENT)
- SA & VA
- TRAFFIC MONITOR
- INTRUSION DETECTION SYSTEM
- FORENSYC RECORDER

# Main Features in Details

## **CENTRAL SYSTEMS**

complete powerfull Analysis and Report by correlating all information from sensors

## **SIEM**

collect and correlate all log and data from existent devices (network, data center ...)

## **SA & VA**

sensor that collect information by auditing actively network and devices and integrate informations directly in the central data fusion

## **TRAFFIC MONITOR**

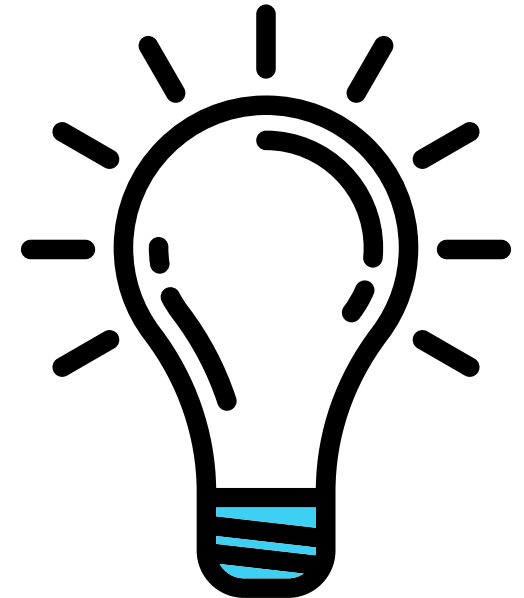

direct flow data collection (silent passive sniffing) automatic Services, Device and User Awareness

## **INTRUSION DETECTION SYSTEM**

passive collection for security issue and malware discovery (signature from public and private community)

## **FORENSIC RECORDER**

full flow recorder for historical analysis and correlation and storage big data

# Secure Path Crypto Communications

## MOBILE DEVICES

specific model of smartphones and tablet armed with specific Secure OS Android 7.x that perform all secure and crypto communications

**MOBILES ARE TOTALLY EMBEDDED. NO DATA CAN BE ACCESSED WITHOUT THE RIGHT KEY**

## ENTERPRISE VOIP SECURITY SUITE

complete solution that permit crypto communication on digital fixed phone (implemented on existent PABX)

## SECURE COMM INFRASTRUCTURE

a complete solution that can secure all kind of communication for Enterprise and Governement needs

# Cyber Intelligence

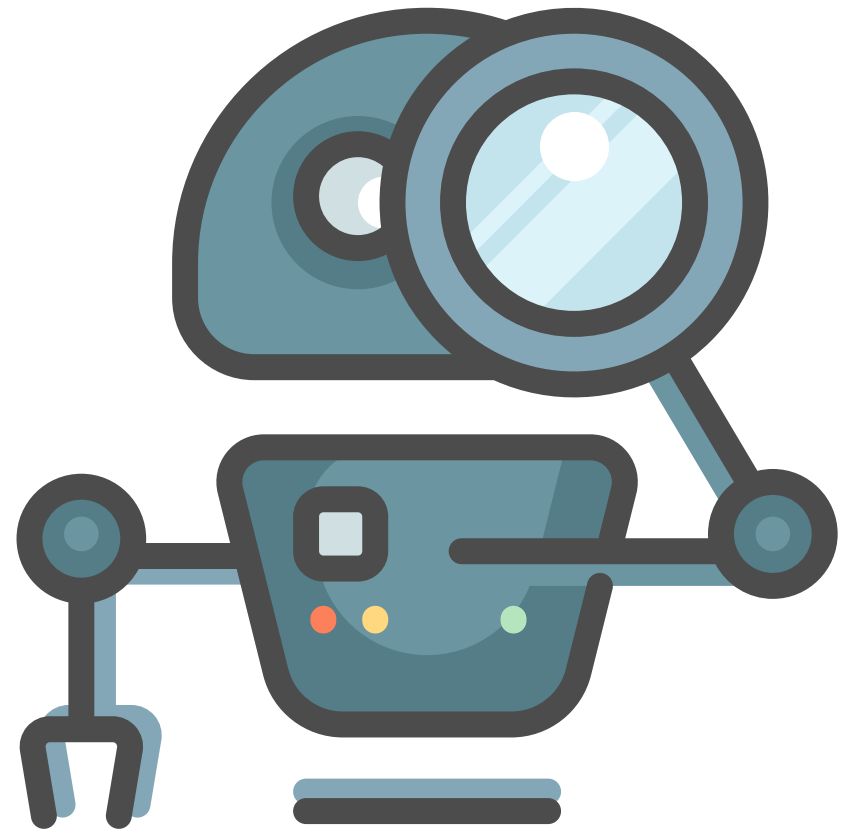

**SPECIFIC TRAINING IN CYBER SECURITY**  
large catalog of courses & services

**FORENSIC OPERATIONS**  
all kind of services in legale forensic analysis & operations

**CYBER INTELLIGENCE TOOLS**  
to perform a large operation in OSINT & CLOSED SOURCE INT

**CYBER INTELLIGENCE SERVICES**  
to perform any action in TELCO intelligence op

**INTEGRATION**  
all our solutions can be customized & integrated with any existing platform
